

Google Meet Classroom Rules

I am learning from home on **Google Meet**.

When I am learning from home there are certain classroom **expectations** just like when I am at school.

I will follow my schedule as I do when I am at school in person.

I will log onto the **Google Meet** that my teachers set up. This is just like being in the classroom.

I will **follow rules** when working from home as I do when I am in person at school.

My Google Meets Rules are:

- ☺ When my teacher starts to teach I will **turn off my microphone**.
- ☺ When my teacher is teaching I will **pay attention**.
- ☺ When my teacher is teaching I will **only ask a question that is related to the topic being taught**.

- ☺ When my teacher is teaching it is NOT a time to talk or use the chat with others in the class. This means NO talking and NO typing.
- ☺ When my teacher is teaching I will NOT interrupt.

When I follow these rules I get to stay in the Google Meet, learn and see my teacher and classmates!

I will try my best to pay attention and not interrupt my teacher when meeting on Google Meet.
